

Safety Coalition

Why a Safety Coalition?

Every day we interact with strangers and put ourselves at risk. We do not want to believe it will happen to us but the very nature of our business makes us vulnerable to crimes of all types.

Our mission is to provide awareness and education for the safety of our CRAAR Members and the communities we serve. Our goal is to keep safety a priority in the minds of our members.

Watch each month for information on safety.

If you have a concern or idea please send it to
